Subject: Response to KWMU, RE: Possible SSE Impacts Report

After consultation with Cecilia and David, we will provide the following written comment to Veronique LaCapra at KWMU:

"EPA Region 7 has tasked the responsible parties with evaluating potential impacts of the subsurface smoldering event in Bridgeton Landfill, and a report of that evaluation was completed on January 14, 2014. EPA Region 7 forwarded the report to the EPA Office of Research and Development (ORD) for its expert review and comments, and those comments have just been received by the region. EPA Region 7 staff are currently reviewing the ORD comments and performing an evaluation of the report. That evaluation is not complete at this time."
